OEM dashboard software for the enterprise

Differentiate your product while staying focused on your core business. Drive end-user adoption while demonstrating results where customers see them. Do it all with Klipfolio Dashboard.

You can release a stronger product in less time. Eliminate the time and risk of developing a dashboard for your enterprise software solution by embedding desktop dashboard software designed to your specifications.

An OEM relationship that adds value

Klipfolio is the KPI dashboard for business. It's the only dashboard software that brings real-time performance metrics directly to the desktop so they're always visible and actionable.

Light-weight, standards-based, and secure, the Klipfolio Dashboard platform scales to 10s of thousands of users and is easy to integrate with common formats and protocols: ODBC, XML, CSV, MS Reporting Services, SOAP and more.

You get more than dashboard software with a Klipfolio OEM agreement. You gain the support, services, and marketing know how of an organization dedicated to helping your dashboard-enabled software product succeed.

Business benefits

- Differentiate your product for competitive advantage.
- Accelerate your time to market.
- Add value to your product with valuable features.
- Drive adoption of your software by end users.
- Stay focused on your core skills and core business.
- Rename and brand Klipfolio Dashboard so it looks like one of your own applications.
- Know you can rely on Klipfolio for knowledgeable support and maintenance.

	OEM level 1	OEM level 2	OEM level 3
Maximum number of users	1,000	5,000	20,000
Branding	-	Apply your logo, colours to toolbar †	Fully branded. Remove all Klipfolio branding ††

† Branding is limited to application toolbar, and the choice of available skins. Application name remains as Klipfolio Dashboard, application icon remains as is.

†† Professional service fees apply depending on branding and customization requirements. Klipfolio copyright notice must remain in About box.
